John Merwin Cortez

Website Designer

ABOUT ME

A self-taught web designer with almost two years of experience, I mainly use Figma as my design software tool for almost every design project I've worked on.

WORK EXPERIENCE

Graphic / Website Designer Intern | iPhiTech

Feb 2024 - Present, Remote
During my internship at iPhiTech, I revamp THE ASIA CEO's website, giving it a modern and user-friendly makeover. Additionally, I had the opportunity to get hands-on with app design by creating and testing a prototype for a mobile application catering to THE ASIA CEO's needs.

Self-taught Website Designer

December 2022 - Present

I've been teaching myself design for almost 2 years now. My skills lies in creating stunning website landing pages that grab attention. I've honed my skills using Figma as my go-to tool, maximizing its features to bring creative visions to life.
